OBLIQUE TAX INTELLIGENCE

Tax exposure diagnostic

Profile: business · Priority: **CHECK DEADLINE NOW** · 7 open items

1. A filing or payment due within 30 days, or already missed? (yes)

Check the exact filing and payment date with the authority or your adviser now. UAE Corporate Tax returns are due 9 months after period end; VAT returns monthly or quarterly by the 28th; KSA zakat/CIT within 120 days of year end.

Oblique files returns and negotiates penalty waivers.

2. Taxable sales near or above AED or SAR 375,000 in the last 12 months? (yes)

Run the registration check: mandatory registration is required within the statutory window once the threshold is exceeded; voluntary registration from AED/SAR 187,500.

Oblique manages VAT registration and first returns.

3. A Free Zone entity relying on the 0% rate? (yes)

Test the Qualifying Free Zone Person conditions: adequate substance, audited financial statements, qualifying activities, transfer pricing compliance and the de minimis limit on non-qualifying revenue.

Oblique runs a Free Zone eligibility review.

4. Transactions with group companies or connected people? (yes)

List related-party balances, fees and agreements. UAE requires arm's-length pricing, a TP disclosure form above AED 40m of related-party transactions and master/local files above revenue thresholds; KSA requires TP documentation for zakat payers too.

Oblique prepares TP documentation and benchmarking.

5. Unsure about your UAE Corporate Tax registration or first return? (unknown)

Confirm registration with the FTA (all juridical persons must register) and the first period's filing date. Late registration carries an AED 10,000 penalty.

Oblique handles registration and first-return readiness.

6. Unsure whether a relief, exemption or special regime applies? (unknown)

Confirm the exact eligibility conditions (Small Business Relief, participation exemption, free zone, treaty rate) and make any required election in the return before using a reduced rate or relief.

Oblique documents elections and relief positions.

7. Ready for UAE e-invoicing? (unknown)

Identify your phase by revenue: AED 50m or more means an accredited service provider appointed by 31 July 2026 and e-invoicing live from 1 January 2027; below AED 50m means appointment by 31 March 2027 and live from 1 July 2027 (Ministerial Decisions 243 and 244 of 2025). B2C is out of scope for now. Map invoice flows and test the Peppol-based format before your date.

Oblique runs e-invoicing readiness assessments.

A checklist built from your answers. It is not a risk score and not a tax opinion. No flagged items does not establish compliance or confirm that no tax is due. No contact details are needed to view, copy or print this checklist.
